消防性能化与消防工程研讨会，原名“消防性能化规范发展研讨会”，是由中国消防协会、中山大学工学院、清华大学公共安全研究中心、中国科技大学火灾科学国家重点实验室、香港城市大学建筑系共同发起的学术会议，旨在探索国际消防工程与性能化规范发展的新趋势，分析消防科学与工程在实际应用中的问题，同时探讨有关性能化设计规范审查的框架和理念，推动各地科学化防火设计的发展与应用，并为在这一领域进行前沿研究活动的科学家提供一个学术交流的平台，以推动火灾科学与消防工程学科的发展与影响，迄今已在香港、台北和北京成功举办了四届，取得了良好的效果。第五届会议在广州中山大学举办，会议将在继承消防性能化研究的基础上，对火灾科学和消防工程领域的科研作更深层的探讨和交流。

Conference on Performance-based Fire and Fire Protection Engineering, formerly known as Conference on the Development of Performance-based Fire Code, was sponsored by China Association of Fire Protection, School of Engineering of Sun Yat-sen University, Public Safety Research Center of Tsinghua University, State Key Laboratory of Fire Science of the University of Science and Technology of China and the Department of Building and Construction of City University of Hong Kong. Its aims at exploring the development of fire safety engineering and performance-based fire safety design. In the conference, problems arising in the application of fire safety engineering design, the use of performance-based fire codes and fire safety engineering research will be discussed. The conference will serve as a platform for fire science and engineering researchers, fire safety practitioners, building and construction professionals and academics to share their experience and knowledge in this field. Having been successfully held for four times in Hong Kong, Taipei and Beijing, the fifth conference will be held in Sun Yat-sen University, Guangzhou. The conference will continue to serve as a platform for all experts and relevant professionals to explore fire safety science and engineering.
